

Controlled Substances Call Review

► Review. Reflect. Improve.

YOU'LL REVIEW...

01 PCR Documentation

Peer review and commentary on colleagues' patient care reports: assessment, indication, dose, route, reassessment, and clear, complete narratives.

02 Narcotic Administration

Appropriate use of prehospital controlled substances against protocol, including patient response, monitoring, and wasting and accountability documentation.

03 Feedback & Discussion

Group discussion with physician and instructor commentary on what went well and where practice and documentation can improve.

SESSION FORMAT

Two-hour, discussion-based case review. Each session reviews real-world calls where controlled substances were given, with a focus on learning and quality improvement.

HOW TO REGISTER

1

Go to ClearlyTMS

Scan the QR code to register.

2

Sign in or create an account

Follow the registration form for this course to set it up. If you're a member of an affiliated agency, your EMT number is your coupon code.

3

Enter your credentials

Make sure you update your "State EMT Number" in the "Credentials" tab once your account is confirmed.

4

Attend your session

Pick the date that works for you and complete any pre-course work before the session.
