

# EMT Residency Program

**April 20 – April 24, 2026**

This week long program is designed to provide advanced clinical experience for Emergency Medical Technicians (EMTs). This immersive experience will enable EMTs to gain a deeper understanding of hospital workflows. Participants will gain in-depth exposure to patient care through a structured residency with clinical observation rotations at Good Samaritan University Hospital.

Participants will trace the patient pathway from the emergency department to the OR, to gain a comprehensive understanding of patient care, observing, learning and shadowing clinical staff throughout the process.

Spaces are limited.
