10th Edition Combined Provider Course

Basic and Advanced Prehospital Trauma Life Support

The Prehospital Trauma Life Support (PHTLS) course is a unique continuing education program created in recognition of the real need in EMS education for additional training in the handling of trauma patients. This indispensable program is designed to enhance and increase knowledge and skills in delivering trauma care in the prehospital environment.

What does PHTLS cover?

PHTLS picks up where other educational programs leave off. The course focuses on trauma patients in the prehospital environment – how to identify, stabilize, treat, and transport them with the highest level of care and give them the greatest chance for survival.

This course was developed by the National Association of Emergency Medical Technicians (NAEMT) in cooperation with The Committee on Trauma of the American College of Surgeons.

PREREQUISITES: Students must be current CFR, EMT, AEMT or Paramedic.

LOCATION: Peconic Bay Medical Center
1 Heroes Wy, Riverhead, NY 11901
